The screenshot shows the Google Cloud Firestore console interface. At the top, there's a navigation bar with the 'taller2ym' project selected. Below this, a warning banner advises protecting resources against abuse. The main area is divided into two tabs: 'Vista del panel' (selected) and 'Compilador de consultas'. The 'Vista del panel' tab displays a hierarchical view of the database structure. The path is 'objetos' > 'PcBkdIve9EX4mL7ssFL7'. The 'objetos' collection is expanded, showing a single document with the ID 'ap7rWcNInUYJtwIaQjWv'. The document's fields are listed in a table-like structure: 'creadoEn' (15 de mayo de 2023, 12:05:43 UTC-5), 'descripcion' ('Lamborghini'), 'imagen' (a small image icon), 'nombre' ('Mbape'), 'precio' ('10.000000'), and 'vendido' (false). At the bottom, a location pin icon indicates the database location is 'nam5'. The browser's address bar shows the URL 'console.firebase.google.com/project/taller2ym/firestore/data/~2FpcBkdIve9EX4mL7ssFL7?hl=es-419&view=panel-view&scopeType=collection&scopeName=%2Fobjetos&query='.
